Attachments: LITERATURE SEARCH STRATEGY and appendix C.docx

Here ya go. Good thing I did this, I found a weird new literature search table in appendix C that SRC had added.

LITERATURE
SEARCH STRAT...

I can pull the lit search section that we sent to Bob and send to you so you can look at the text in context.

Well, glad to hear it worked out in the end!! Sorry for the journey ☺

Should I just look at the file that was sent to Bob or do you want to pull and send me the specific language that we would put in the lit search section?

I know you have some edits to that paragraph I added about the post peer review lit search update. Hopefully you can get those to me in the next several days.

Also, Vince was not at the meeting, so he might need to be brought along. I think Vicki is going to send around the draft SOP.

Sorry for the long email. Thanks for thinking about this issue and pulling together materials and forcing people in the same room to come to an agreement!

-K

Gina and Mary essentially agree with me and this morning I gave Vicki an overview.

Oh no. I suppose I have doubts about how useful this will be without you. You have certainly thought about this a lot longer than most other people on staff.
Hopefully Sue will be there...

Well, it turns out that I'm the only one that really can't attend tomorrow. So, Gina has graciously agreed to lead the meeting (thank you, Gina!!). My apologies for all the rescheduling and multiple emails.

You guys have all the materials...have a great discussion!

Thanks,
Samantha

UPDATE: Need to reschedule to allow for several key folks to participate. My apologies for the overlap with lunch!

Hi all,

A question regarding the application of the Stopping Rules and documentation of literature post-peer review for the benzo[a]pyrene (BaP) assessment recently came to light. The email discussions around this issue prompted several more questions. Therefore, a quick discussion was warranted in order to solidify a general, yet flexible practice that can be documented and communicated.
